

# Information Sheet

## FCC Ultrafuse PP

Date: April 27<sup>th</sup>, 2020

Version no.: 1.0

Dear customer,

At the date of issue, we can confirm that the raw materials used for the production of our PP filaments are suitable for use in food contact applications in the European Union according to the European Plastics Regulation (EU) no. 10/2011.

Since BASF 3DPS B.V. is not the manufacturer of the final (3D printed) product, the responsibility to test if the final product complies with national and international legislation rests with the user of the filament.

This product information was generated electronically and is valid without signature.

*This document expires upon any regulatory change. Please request new confirmation if needed.*

*This information is believed to be accurate and refers to the laws, regulations, and products at the date of issue. However, BASF makes no express or implied representations or warranties with respect to the information contained herein. It is the sole responsibility of our customers to determine that their use of BASF products is safe, lawful, and technically suitable for their applications. Because of possible changes in the laws and regulations, we cannot guarantee that the status of this product will remain unchanged.*
